Art Unit: 3728

1. The following is an examiner's statement of reasons for allowance: The closest prior art appears to be US 2002/0078593 (see figure 3) and US 5,678,326. Among other things, the "interior upper" (2,3) of '593 does not have a lower edge region that "substantially extends beyond a lower end of the exterior upper". Among other things, the free end of the outwardly folded interior upper of '326 Patent is not joined to the exterior upper (1). These elements are not taught and nor would it appear obvious to modify these reference with these features that are lacking.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
